

**State Indoor Radon Grant (SIRG)  
Reporting Template  
EPA Region III**

<b>Organization:</b>	PA DEP/Bureau of Radiation Protection/Radon Division
<b>Grant Number:</b>	351721
<b>SIRG Year:</b>	2016-2017
<b>Reporting Period:</b>	April 1, 2017 thru September 30, 2017
<b>Essential Element 1:</b>	Goal 1: Addressing Climate Change and Improving Air
<b>Essential Element 2:</b>	Objective 1.2: Improve Air Quality. Achieve and maintain health- and welfare-based air pollution standards and reduce risk from toxic air pollutants and indoor air contaminants.
<b>Essential Element 3:</b>	Commitments are on radon report tab

<b>Project Narrative:</b>	The late spring and summer do not seem to be as busy as fall and winter. We will soon be gearing up for NRAM, new EPA grant period, and continued "targeted" surveys via ALA.
<b>List successes:</b>	We had a very good effort from Kevin Stewart and the ALA Targeted surveys, with Dr. Paul Houle helping out with schools training.
<b>List challenges:</b>	We had hoped to have a course to the radon mitigation contractors on diagnostics and this fell through due to lack of time for the presenter. We had also hoped to start our Re-entrainment study and this is still not on-going.
<b>Any other:</b>	Yes, we need to work on this reporting matrix. Put it into a Word format and remove some of the items, and probably shorten it. And, since I don't want to leave this on a negative note, thank you very much EPA for this and our (all states) continued funding. EPA Headquarters staff should come up to PA and see our high development, at least Bill Long.
